

## Q4 Please list equipment, specific for colon ER, that a competent ER practitioner would be familiar with.

Answered: 12 Skipped: 0

#	RESPONSES	DATE
1	EMR: Optical enhancement modalities of the scope, functioning and settings of the ESU, interject needles, snares, coag graspers, clips, endoloop, hemospray, proper technique for tattooing. -I don't do ESD.	1/13/2018 5:05 AM
2	Colonoscope. Attachment caps. Different snare sizes. Coaggrasper. Clipping. OTSC. Electrocautery unit settings and principles of electrosurgery.	12/7/2017 5:31 PM
3	All types of and variations of - Injection needles - Snares - Coagraspers - Clips - Endoscopic knives - APC - Distal attachment caps	12/3/2017 9:16 PM
4	* endoscopes * Erbe or other * snares * needles * lifting solutions * Endoloop * clips * OTSC * Coaggrasper * APC * ESD-knives	11/18/2017 9:03 PM
5	HD COLONOSCOPE, PROCESSOR PAED COLONOSCOPE + GASTROSCOPE AVAILABLE IF NEEDED ELECTRONIC REPORTING SYSTEM WITH IMAGE CAPTURE CAP RANGE OF SNARES INJECTOR INJECTATE CLIPS MODERN GENERATOR WITH BLENDED CURRENT OPTIONS, PREF ERBE VIO POLYLOOP RETRIEVAL BASKET SPOT TATTOO	11/7/2017 10:42 PM
6	1. Distal attachment cap 2. Injection needle and injectate used for submucosal injection 3. Snares 4. Clips 5. Coagrasper 6. Electrocautery unit and appropriate settings for resection, coagulation and ablation	11/5/2017 1:21 PM
7	1. Variety of snares 2. Endoscopic clips (though the scope, over the scope) 3. Endoscopic loops 4. Injectors 5. Injectate (gelo, IC, adrenaline etc) 6. Haemostatic devices (coagrasper, STC) 7. Diathermy Unit - clear understanding of different settings (cut versus coag, force versus soft etc)	11/5/2017 3:35 AM
8	1. Injection needle 2. Injectate (colloid, methylene blue/indigo carmine, adrenaline) and how to prepare 3. Variety of snares depending on individual preference 4. Electrocautery and its settings 5. Clips 6. Coagrasper (colon) 7. ESD knives (Dual knife, IT etc.) 8. Scopes (including paediatric colonoscope and occasionally a gastroscope) 9. Foot pump 10. Co2 insufflator 11. Transparent Cap 12. Knowledge of using the 'over the scope' clip could help	11/5/2017 2:14 AM
9	-monitoring for sedation/aneesthesia -HD endoscop, Chromoendosocpy - Diathermy source - CO2 - Water pump - snares and knives - solutions for injection - needle - clips for hemostasis - ovesco - coagrasper	11/3/2017 1:22 PM
10	injectors, injection solutions, snares, haemostatic forceps, diathermy unit and settings, APC, biopsy forceps, clips, haemostatic powder, endoscopic knives/scissors, distal attachments, different types of endoscope, washing pump and attachments.	11/3/2017 11:35 AM
11	Standard and pediatric colonoscopes, gastroscopes. Processor and light source, waterpump, generator (ERBE-like). Lube, injection needles, multiple size snares (3 or 4 minimum), biopsy forceps, clips, coagrasper, OTSC (optional), APC catheters, saline, gel-like solution (optional), blue dye, epinephrin	11/1/2017 10:54 AM
12	Injection solutions, needles, variety of snares, diathermy unit and different settings for various uses, clips, coag-graspers, tattoo, retrieval nets, topical haemostatic agents. Distal attachments for scope.	10/31/2017 10:19 PM
