

Q30 Is attendance at a multi-disciplinary meeting a mandatory requirement for competent trainees and practitioners of endoscopic resection?

Answered: 12 Skipped: 0

#	RESPONSES	DATE
1	Yes	1/13/2018 7:02 AM
2	no	12/7/2017 5:52 PM
3	Yes - any other answer is as based on lack of data and knowledge as the attendance at MDT and improved outcomes is based on our past 6 years experience of all comers meeting criteria for complex polyps	12/3/2017 10:03 PM
4	Yes, but not for obviously benign disease	11/29/2017 12:32 AM
5	Yes, if organized (and ideally it should)	11/18/2017 9:41 PM
6	All patients with malignant polyps should be discussed within the setting of a MDM	11/13/2017 2:01 PM
7	Yes	11/5/2017 4:12 PM
8	Yes	11/5/2017 3:46 AM
9	Yes	11/3/2017 3:14 PM
10	yes	11/3/2017 12:56 PM
11	If possible it would be preferred however it depends very much on the content of this meeting. In case it is completely CRC focussed one should be required to attend at least once a month. Difficult subject. All unsuspected cancers should be presented in an MDT, preferably with endoscopist present.	11/1/2017 11:55 AM
12	Yes	10/31/2017 11:12 PM
